BEAUTY IN IMPERFECTION

BEAUTY IN IMPERFECTION

EACH PRODUCT HAS SOUL AND ITS OWN STORY,
WHICH GIVES IT A UNIQUE EXPRESSION

At Muubs we strongly believe in preserving originality and creating
long-lasting design products with a touch of roughness.

We make objects for the home that celebrate the individuality of
the people living in it. Products that create contrast, play with your imagination,
age gracefully and add the missing piece of soul and roughness to our homes.

We call it "beauty in imperfection"

Coffee table Ishi

Japanese aesthetics and connection to nature, has had a profound impact on me. The Ishi coffee table is designed with inspiration from pebbles, rounded by waves and glaciers found along riverbanks and coastlines. The organic shape is a deliberate choice to create a sense of unity and togetherness in the family room, ideal for cozy gatherings.

Naija Ilsøe Nielsen, designer

ISHI

Ishi captures the enchanting essence of natural beauty and Japanese design philosophy, embodying the narrative of delightful and distinct pebbles, shaped by the lapping of waves and glaciers, discovered along riversides and shores. The name 'Ishi', also means pebble in Japanese and embodies a design principle that celebrates soft forms and shapes, elegantly symbolizes this connection.

The design is crafted with serene and tactile forms, with each leg shaped into an individual and unique form, inspired by pebbles and balancing sensations. The sculptural legs add a visual interest, transforming the table into a functional 'work of art'. Combined with the tabletop's round shape, the design achieves a beautiful harmonious expression.

VERDE

Verde celebrates beauty and simple elegance in an enchanting combination with rustic finishes and a robust, masculine expression. Verde is named after the series original design created from green marble, which is deservedly celebrated in naming the side table. The series now encompasses various variations of the beautiful and luxurious stone.

Verde is Design: geometric shapes in a simple construction that gives weight and elegance at the same time. The side table also hides beautiful nuances and play of colors, while rustic details and finishes symbolize its origins in the mountains.

Pamuk shelf S

Pamuk is a tribute to the scenic and beautiful landscape 'Pamukkale' in Turkey, characterized by beautiful and distinctive limestone terraces, shaped by water from hot springs. The inspiration and idea behind this design arose from fascination for the beauty of imperfection and the natural creations – and one must say, the landscape at 'Pamukkale' is a beautiful and unique example of that.

PAMU

Pamu celebrates the unique forms of nature, drawing inspiration from the landscape of 'Pamukkale' in Turkey, known for its beautiful and distinctive limestone terraces. Behind the series' organic design lies the story of how water from hot springs has cascaded down the mountainside over thousands of years, creating unique, undulating shapes.

The series offers a scalable and adaptable shelving system, with a rounded and organic design that blends functionality and Japanese minimalism. The idea is inspired by the layered formations of the landscape, and the soft, rounded shapes of the design bring a different organic expression into play - whether used individually or in multiple shelves together.

ERIS

The name Eris is inspired by Greek mythology, as the shape and surface of the series are based on ancient Greek architecture. The series' organic shapes are derived and inspired by historical columns and ancient ceramics, lending the series a majestic expression and distinctive character.

SOOTHING AND TIMELESS SHADES

The series is crafted in light, earthy tones that, with a soothing undertone, have a timeless and versatile expression. With their ability to create a sense of calm and harmony, the products are easy to integrate into any personal decor.

The beautiful series is made of terracotta and the surface is burnt with a special technique that creates a unique and rough surface. Each product carries its own distinct and unique surface, which comes to life when you let your fingers glide over it.

DECORATIVE OBJECTS

AION

Aion is a series of raw home accessories, designed with a sculptural and rugged expression in iron, bringing contrast and style into any interior. The series consists of hooks, candle holders, and tealight holders, inspired by the irregular shapes found in nature.

INSPIRED BY NATURAL BRANCHES

Designer Birgitte Rømer has crafted the form for parts of the Aion series. The distinctive candleholders with three legs are handcrafted, designed to resemble branches by carving and shaping the wood. Subsequently, the original models are cast in sand, to ultimately cast each product in iron, imparting a unique and stylish expression to each item.

The remaining part of the series is created with nature in mind and inspired by the handmade expression. The series is tied together by the raw expression and simple design, which are characteristic for the Muubs design universe.

HARLEM

Harlem combines a minimalist and masculine expression with clean lines and exudes a characteristic robust simplicity in an elegant combination of raw metal and timeless oak.

Designed with both versatility and functionality in mind, Harlem represents a modernized interpretation of the 1960s coat rack. Inspired by childhood memories, designer Naija Ilsøe Nielsen finds her creative spark in the atmosphere of a locker room in a sports hall, where coat racks are indispensable.

The Harlem coat rack offers a variety of hanging options in each hook, uniting functionality, aesthetics, and raw design.

Furo series

The inspiration behind the Furo collection was the floating dynamic movement of water combined with the philosophy of wabi sabi – the idea that things have value within their imperfection. To me, what makes this design great is the unpredictability of the form.”

RIPE

Ripe stands out with its characteristic rippled surface and organic shape, adding elegance and sculptural beauty. Each product in the series is carefully crafted in an aesthetic form, contributing to a stylish and sharp expression that defines the overall look of the series.

CHARACTERISTIC AESTHETICS

The series includes a water carafe, water glasses, red and white wine glasses, and bowls in clear glass, each carefully created in its own unique form, giving each glass its own special character.

The organic contours diverge from traditional dinner tables. With its extensive selection, the series facilitates the creation of a stylish and personalized table setting.

Each product is mouth-blown and created with a modern, rippled surface - a technique that makes each piece in the series truly special.
